SUMMARY

Aspiring Web Developer skilled in HTML, CSS, JavaScript, and Java, with strong foundations in Data Structures and Algorithms. Currently learning React and building real-world projects to develop scalable and user-friendly web applications. Passionate about problem solving and continuously improving technical and development skills.

WORK EXPERIENCE

FinanceFlow (Personal SaaS Project) Feb 2026 - Present

- Built a multi-tenant SaaS debt & interest tracking platform with secure JWT authentication.
- Implemented automated interest calculation and transaction ledger management.
- Developed analytics dashboard using Chart.js for financial insights.
- Created responsive UI with React.js and Framer Motion animations.
- Ensured secure account data isolation for multiple users.
- Integrated real-time notifications and profile customization features.

AlgoStreak (Learning Platform) Jan 2026 - Present

- Developed mentor-student platform with role-based authentication and dashboards.
- Implemented group creation and joining features for learning communities.
- Integrated Supabase authentication and deployed application on Vercel.
- Built responsive UI using modern React components.

EDUCATION

B.Sc. Hons. in Computer Science Aug 2025 - Aug 2029

Birla Institute of Technology and Science, Pilani

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming,
- Database Management Systems, Operating Systems.
- Focused on software development and problem solving.
- Built multiple web development and full-stack projects.

Computer Science & AI Program Aug 2025 - Aug 2029

Scaler School of Technology

- Intensive training in Data Structures & Algorithms and system design.
- Hands-on experience building full-stack web applications.
- Regular coding practice on LeetCode and CodeChef.

ADDITIONAL INFORMATION

- **Technical Skills:** Java, JavaScript, HTML, CSS, React.js, Node.js, MongoDB, SQL, Git
- **Tools & Platforms:** VS Code, GitHub, Postman, Vercel, Supabase, MongoDB Atlas
- **Achievements/Activities:**
 - Built full-stack projects like FinanceFlow and AlgoStreak
 - Regularly practice Data Structures & Algorithms problems
- **Languages:** English, Hindi
